Projects

Figma Projects

Adhikari Complex - Web App UI/UX

Designed using Figma

• Designed the full desktop and mobile-responsive UI for the Next Trekking website, a SaaS-based platform that helps users browse and buy any items for the store .

 • Focused on seamless user flows across homepage, trek detail pages, user dashboard, and checkout with gear add-ons.

 • Emphasized clarity, call-to-action hierarchy, and visual storytelling to guide users from discovery to booking.

 • Designed for scalability, maintainability, and brand alignment with modern UI components and smooth interactions.

 – Mobile App UI/UX

Design (SaaS Project) Designed using Figma

• Designed the complete mobile UI/UX for a SaaS-based Food Delivery platform that allows users to explore, order, and manage foods for the People across Nepal.

 • Created wireframes, high-fidelity prototypes, and interactive components with a focus on user-friendly navigation, responsive design, and booking flow optimization.

• Incorporated features such as trek details, package filtering, agent information, and add-on gear selection to enhance the user journey.

 • Followed modern design principles with a clean, intuitive interface and consistent brand identity

Graphics Designs Projects

As a passionate and skilled graphic designer, I have successfully completed a wide range of creative projects, including:

- **Logo Design**
  Designed unique and memorable brand identities for startups, personal brands, and organizations. Focused on clean, scalable vector graphics with strong visual impact.

- **Banner Design**
  Created promotional banners for websites, social media, and events. Each design aligns with brand aesthetics while grabbing attention and delivering the intended message.

- **Social Media Graphics**
  Produced engaging visuals for platforms like Instagram, Facebook, and LinkedIn to enhance online presence and engagement.

- **Print Materials**
  Developed brochures, flyers, posters, and business cards that maintain visual consistency and reflect brand values.

- **UI/UX Graphics (if applicable)**
  Crafted interface elements and visual assets for websites and mobile apps, ensuring both functionality and aesthetic appeal..
